Update your profile picture

EDIT

Please add profile picture to help others recognise you.

UPDATE

It's a standard requirement to fill the all mandatory field when are you sign-in the first time, you will get three option which is as-

- **COMPANY**
- **EMPLOYEE**
- **INDIVIDUAL**

COMPANY: After selecting the company, the user has to full fill the personal details first and the company details. Then after the user has to upload a profile picture and submit the company details as clicking on the submit button, once the process completed the user will get appear on the dashboard.

EMPLOYEE: Through Employee option, the application authenticates the employee either employee is belonging to the respective company or not, its search through the employee domain name at the time of selecting the "EMPLOYEE" option.

Case1: If an employee is associated with the user domain (abc@**instavc.com**) then the user will proceed to fill personal details and when they successfully fill the form they next will be proceeded to upload profile picture page after which the user can be successfully reach Dashboard.

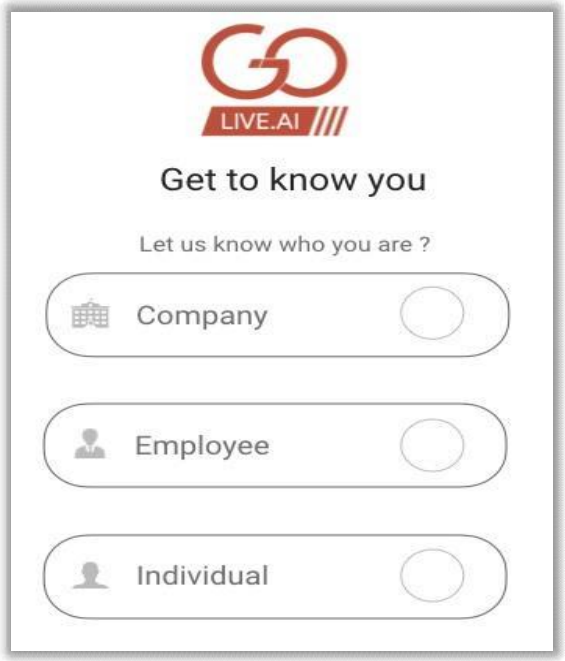
Case2: If an employee is not associated with the user domain and tries to sign in with some other email id(abc@**xyz.com**) then the user will be prompted with company search panel. Then the user has to search for the company and

Case a: if it is found they can click on the associated company name and proceed to fill personal details mentioned after selecting a company.

Choose Your Designation	**Sales**	**Country**	**India**
Company Name	InstaVC	State	Telangana
Website	www.instavc.com	City	Hyderabad
Industry type	Video Conferencing	Zip Code	500181
Business Location	Hyderabad	*Continue …* ★	

After successfully entering all required files then you will get pending approval screen where the company has to approve users access and wait for conformation, until they do not get confirmation from associated company, the user can access dashboard.

case b: If the specified company is not found under the search list, then the user will get the message below the search bar as "*Company Not Found*" i.e., the company which application is looking for you it is not available in its collections (**DB**), then you will get **GO BACK** option in an application, it will take to you 1st stage of the process (After SignIn 1st time)



So, here you can start once again the process.

INDIVIDUAL: In the individual section user has to select if user is not an employee, then they can register as an individual where the user will proceed to fill personal details and when they successfully fill the form they next will be proceeded to upload profile picture page after which the user can be successfully reach Dashboard.
