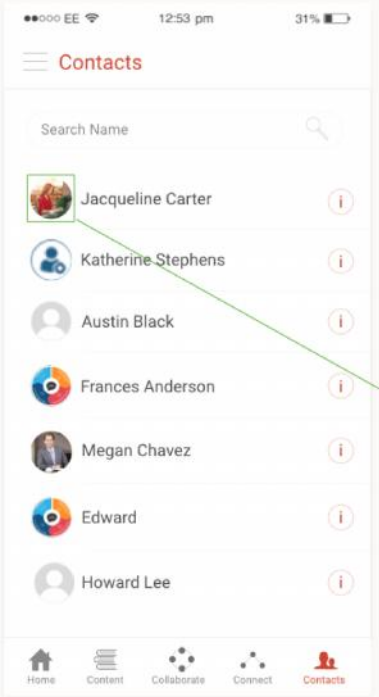
First Name Jenny
DOB 28/04/1988
Remove Connection
Unfollow
Stop seeing Denial updates
Open the view profile Information page of the user
Open the Individual chat page of the applications

5.14.1 - Contacts



5.14.1.2 - Contacts

Opens the shortcut view of user profile

When user click on contact icon then they are going to move on contact page, from where they can select a contact and see their profile and communicate with them using given options like message, audio call, video call or mail them.

If the selected contact don’t have direct connection (Connected throw OEM) User will get option to connect with that contact. In Profile they have more option like Unfollow user & Remove connection.

Remove Connection can end connection with that user and Unfollow a user will never gives any updates about that user.

A user can also contact by clicking on profile picture of that user it will give shortcut to user to communicate.
